Introduction:

The DCT Tools Module of the inventory management system is a resource planning system for the management of IHVN's DCT Tools. This module provides accurate and real-time information of the DCT Supplies, Stock, Distribution, Usage and analysis.

The usage of this module is controlled by various access levels which are Central administrator, State Administrators and Facility Users.

Features and Usage

The Central Administrator:

This is the super administrator of the DCT Module and has the privileges to document supplies of the DCT Tools from the vendors/supplies and keeps the stock in the central warehouse.

The DCT's central administrator has the overall access and control of all the State DCT records and activities such as distribution to facilities, monitoring of usages and generating of any kind of record available in the module across all the IHVN States.

Some of the key reserved privileges of the DCT Central Administrator are;

- Recording of Supplies and updating the Stock
- Distributing of DCT Tools to State Offices / Facilities
- Creating and Managing of User accounts
- Generating of Usage Reports
- Attending to DCT Tools Requests
- Providing of support to users

The State Administrators:

The State Administrator accounts is for managing of all DCT tools activities in the State.

This user can create account for individual facilities users and other users of the DCT Tool supplies in the state.

Some key functions of the state admin are;

- Confirming of Delivered DCT Tools and adding to State Stock
- Distribution of DCT Tools to facilities within the state
- Redistribution of DCT Tools from one facility to another
- Assisting of Facilities in entering DCT utilization (when necessary)
- Monitoring DCT Tools usage in the state
- Providing updated data during reporting periods.

The Facility Users:

The DCT Tools Module facility users are tasked with confirming items sent to them and providing usage reports.

The facility users have access to only tools forward to their individual facilities. They ensure that the items are confirmed at delivery and provides a periodic report of it's usage/utilization.

STEP BY STEP GUIDE

Login into the System

To login, all the users are to visit the link;

http://172.16.12.39:90/iventory

provide your username and password to the link below form below to login;

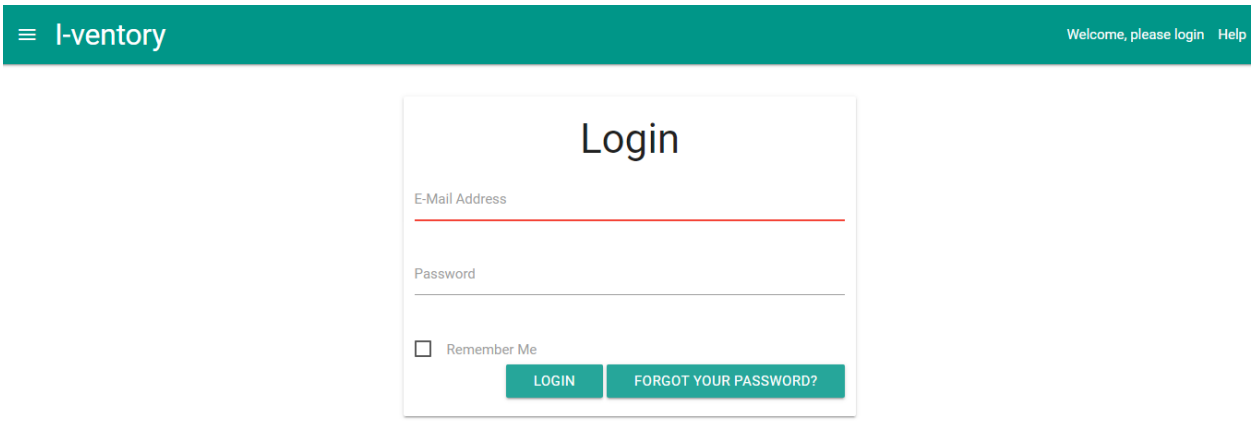

Figure 1: Login Form

Dashboard

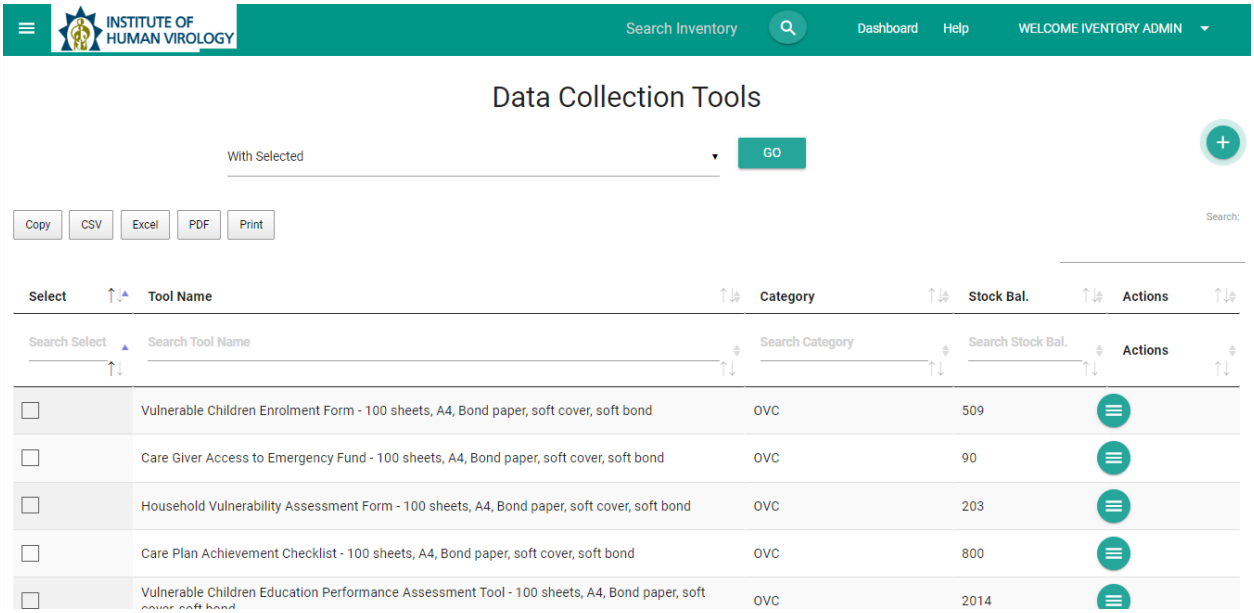

Figure 2: DCT Tools Module Dashboard

Understanding the Labels / Buttons

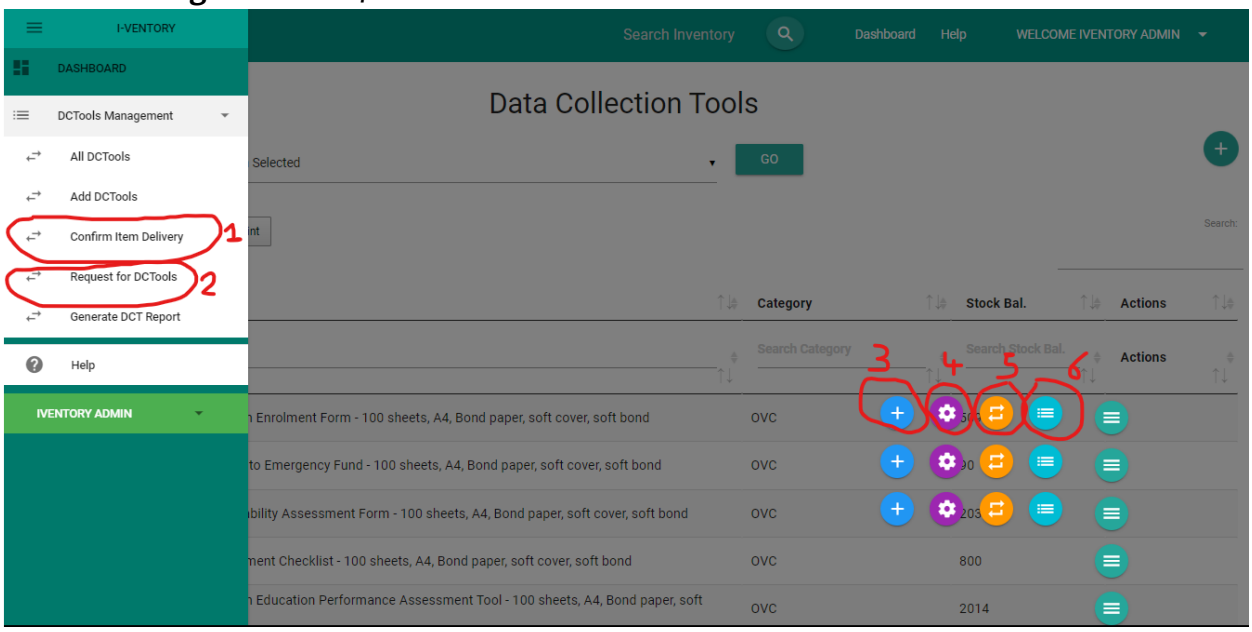

Figure 3: DCT Tools Dashboard Labels

From the image above,

The Three dash line at the top-left corner reveals the Menu

Here are the functions of the labelled links 1-6

1: Confirm Item Delivery: It is expected that upon receiving of items, the user (State Admin or Facility Item) should confirm the items delivered and the quantity. Once the user clicks the button, the form below will be displayed.

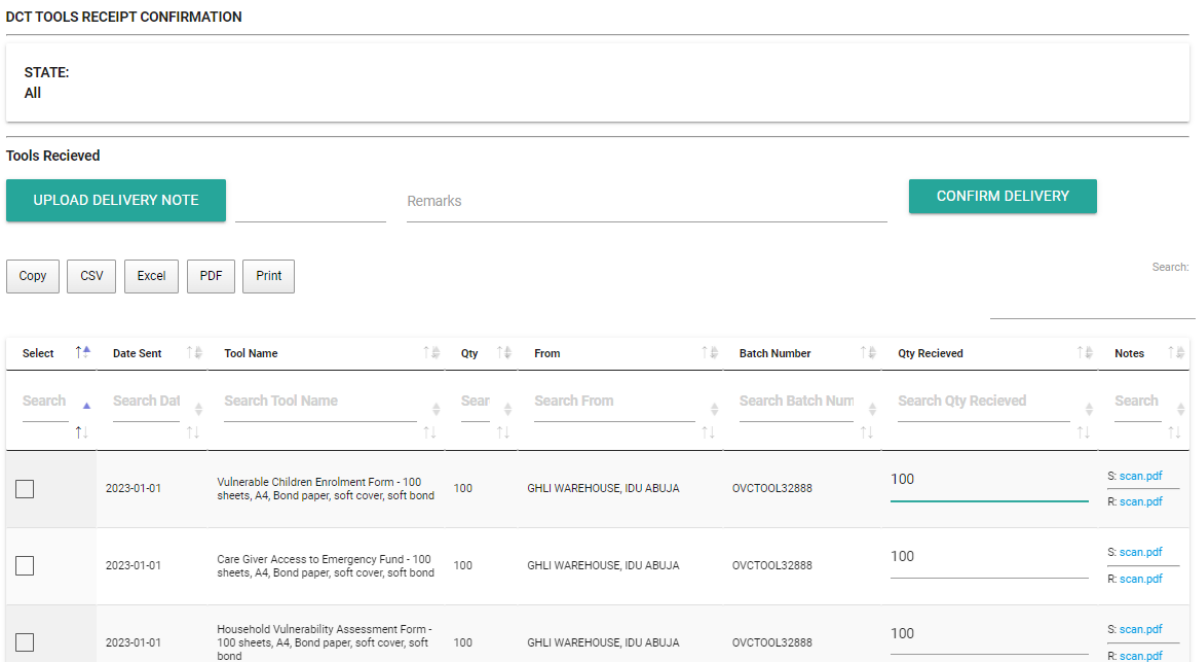

Figure 4: Confirm Delivery Form

First, with the of the checkboxes on the left, select the items you have received

Note: you must upload your own copy of the confirmation receipt (By Click on the button 'UPLOAD DELIVERY NOTE' below).

For each individual items, enter the exact quantity you have received in the quantity received column.

Make your remarks or comments and click on the 'CONFIRM DELIVERY' button to complete this task.

REQUESTING FOR ITEMS (DCT Tools)

2. Request for DCT Tools: The number 2 button selected on the menu is used for Requesting for DCT Tools. The User (from facility / state) can use this button to initiate a new DCT Tool supply request. The form below will be displayed once the button is clicked;

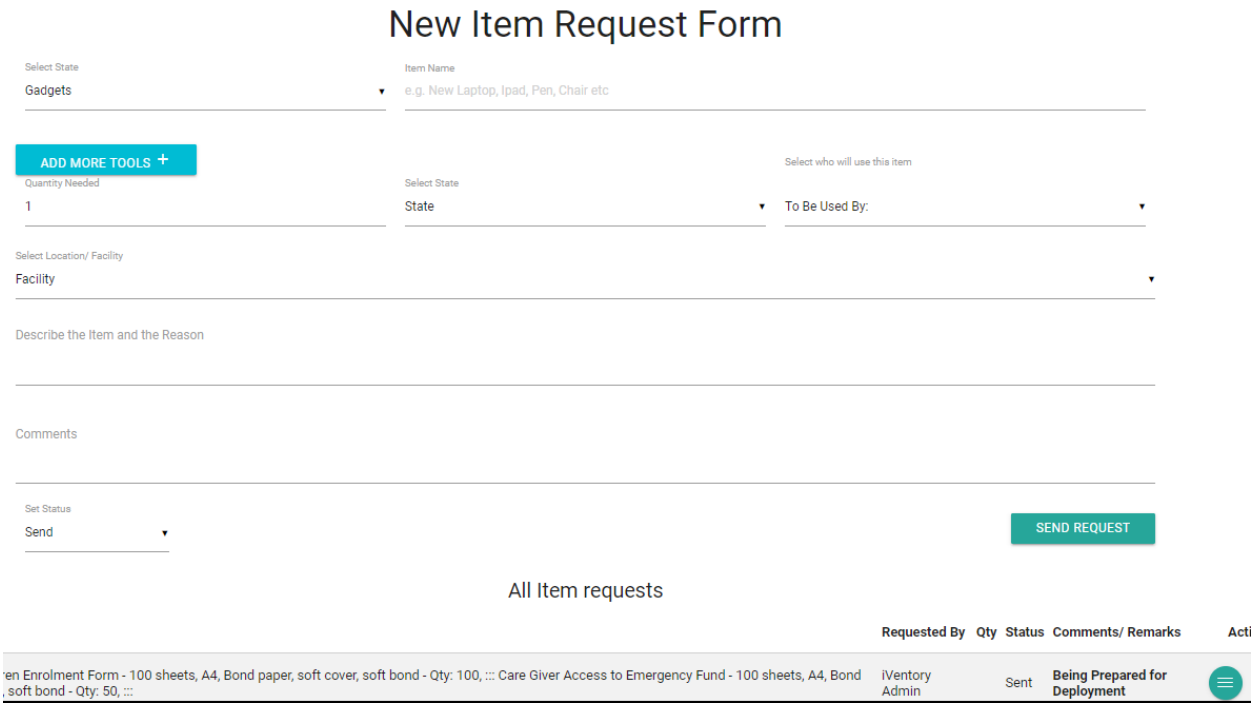

Figure 5: DCT Tools Request Form

- Change the Type to DCT Tools
- Search and Select the Tool name and quantity
- Using the Add More Tools Button – add as multiple tools and their respective quantities
- Enter the name of State, user (or facility), Facility name and detail the need for this tool.
- Also, the State admin can make comment to this same form, then click send

Using the **All Item requests** list, you can track/monitor the Status of your requests.

DISTRIBUTING DCT TOOLS

State Administrators, after confirming the items sent to them can redistribute to their respective State Facilities.

To distribute DCT Tools;

- Use the checkboxes by the left to select the items as shown below;

- On the 'With Selected' list, select 'Enter Distribution Record' and Click Go

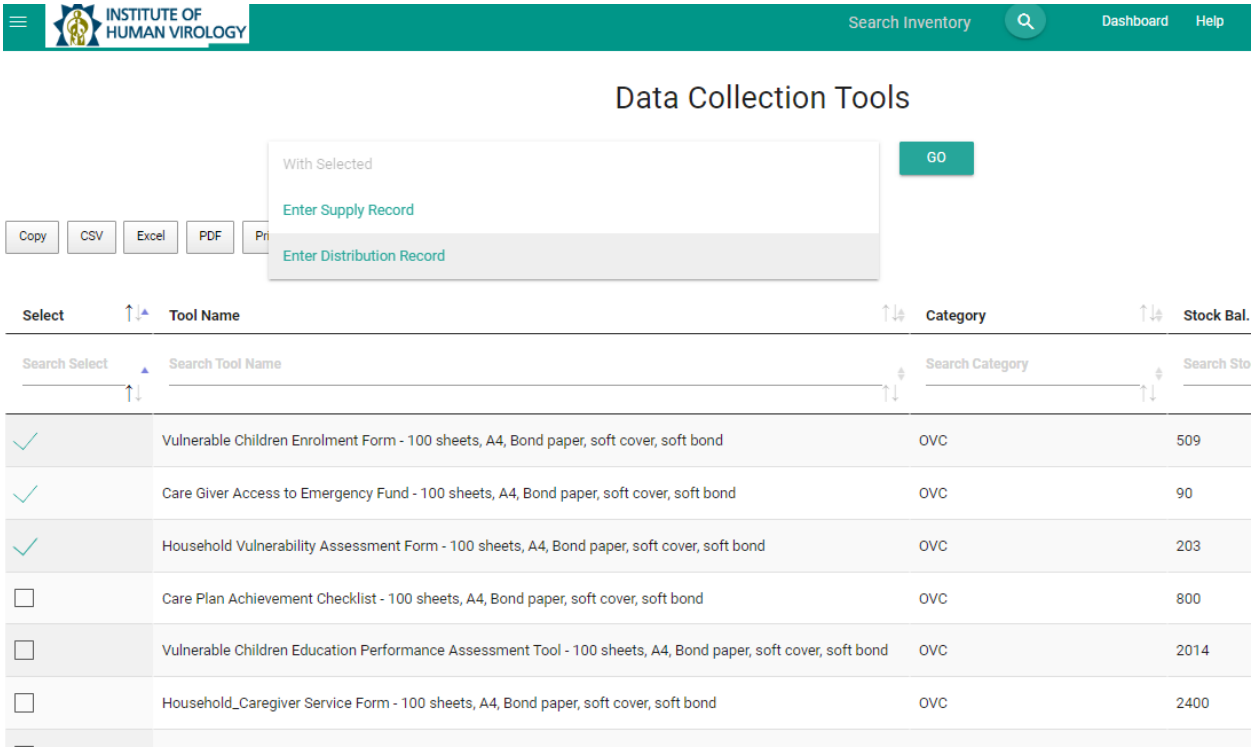

Figure 6: Selecting items to distribute

Note: Each item displays the stock balance; this will guide you in ensuring that only items in stock can be distributed.

Also, every column has a search box, you can search form specific items and select them and then search for another based on Tool name, Category etc.

When the 'GO' Button is clicked, the Distribution Form will display as shown below;

- Enter the quantity of each item you want to send
- Select the Senders Facility, e.g. FCT State Office, Nasarawa State Office, or Abaji General Hospital (for facility-to-facility transfer of items).
- Select the Name of the receiving facility
- Uploading Sending/Delivery Document
- Enter the Batch Number of the Distribution or any unique document number for references
- Enter the Date of this transactions, sender name , receiver name and any other necessary remarks or comments.
- Click on Send DCT Tool to complete this process.

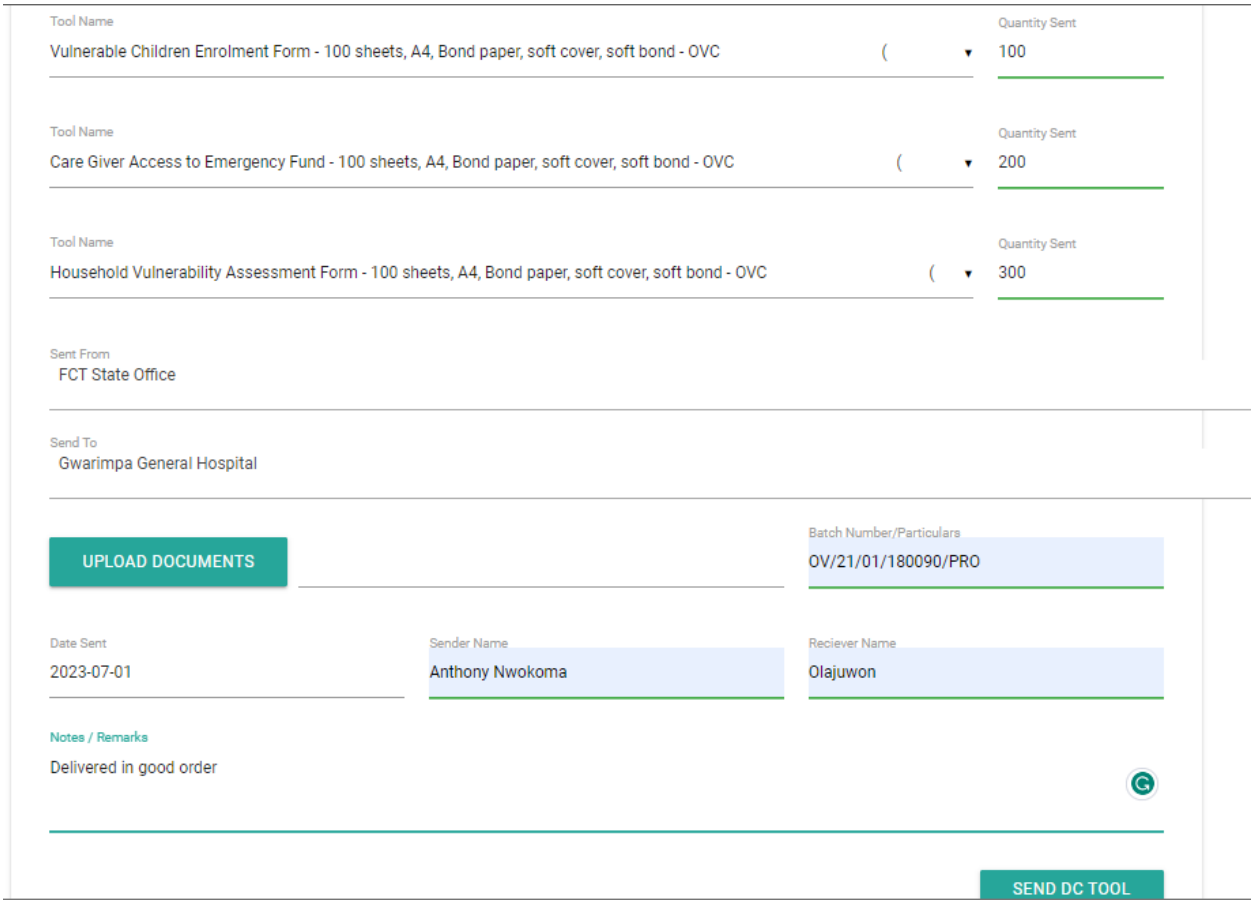

Figure 7: Distribution of DCT Tools Form

Note: The DCT Tool Stock of the receiver will not increase until he/she confirms that quantity received from their end.

TOOLS UTILIZATION REPORTING

It is very necessary that facilities update their respective tools usage/utilization periodically. This feature is available for facility users to report how many items they have usage at any point in time.

To enter facility utilization of DCT Tools;

- Search, locate the tools on the dashboard, and click on the sub menu at the right side of the tool;
- Click on the 'Enter Utilization' round-purple button as shown below;

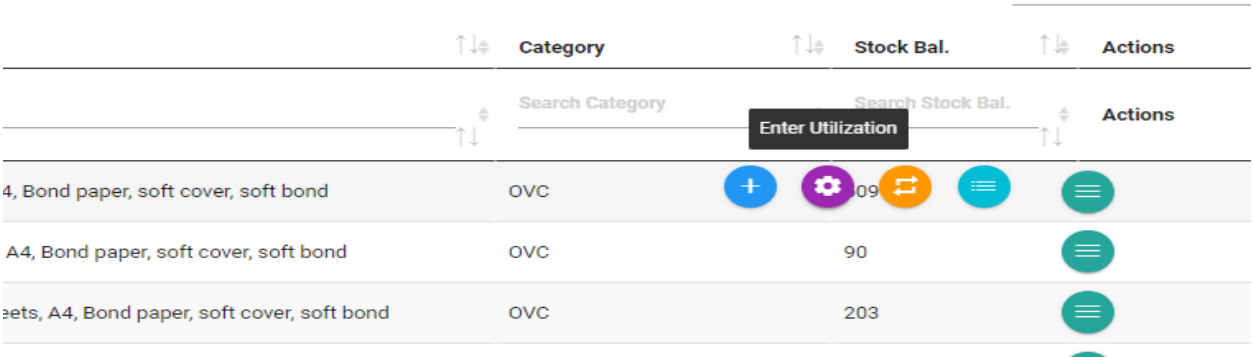

Figure 8: Selecting Item to Report Usage

The form below will be displayed;

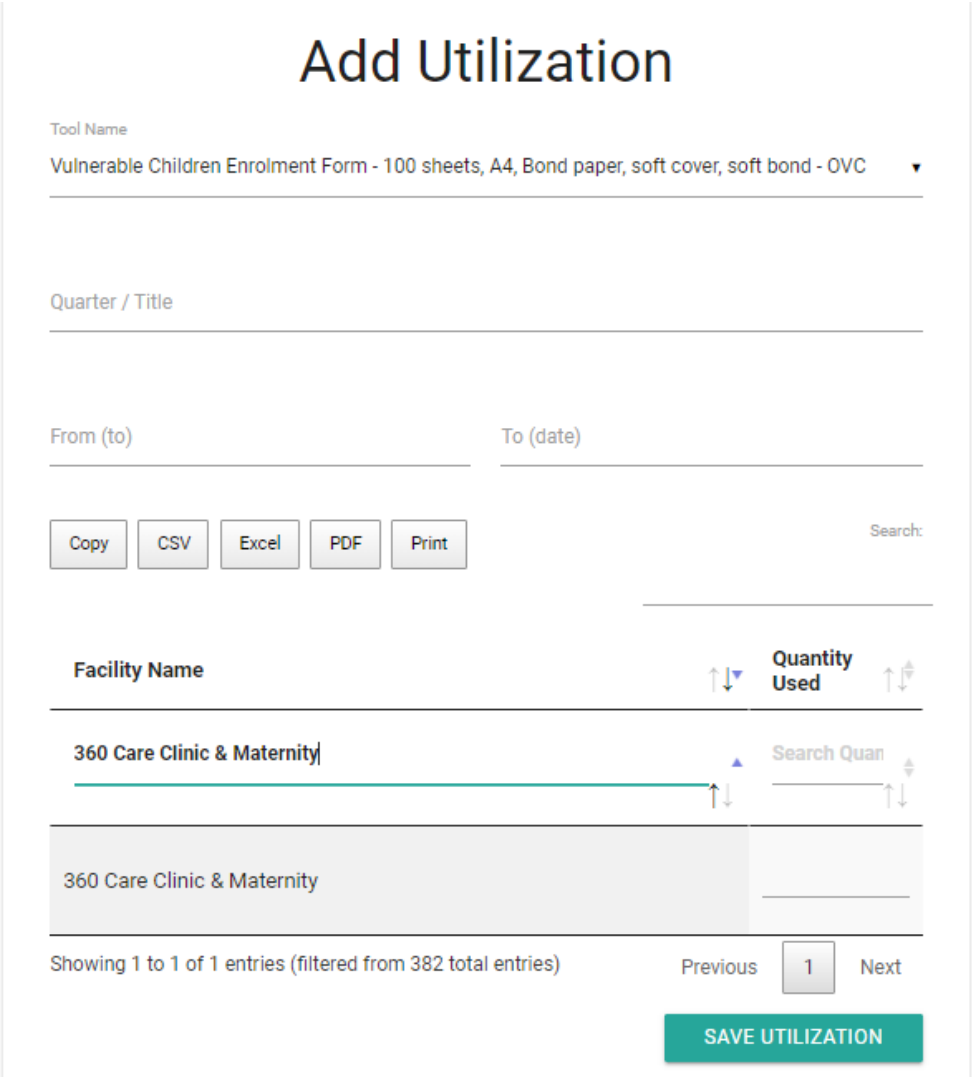

Figure 9: Item Usage Form

Note: for the State Administrators, you will see a list of all the facilities in the state. Then, you can enter utilization for the facilities you want to assist in entering their utilization.

Also, very importantly, the dates MUST be entered according to guidelines. Example, if the requested report is quarterly, then select, dates such as; from 2023-01-01 to 2023-03-31 for first quarter of 2023 or Second Quarter of our program's Physical year.

The Quarter Title can be written as Q1 – FY23 etc.

Click on 'SAVE UTILIZATION' to complete reporting of item usage for the selected period of time.

SINGLE TOOL REPORT

From the form below, you can view a single tools dashboard, where you will see all the supplies for the tool, delivery documents and usage with dates.

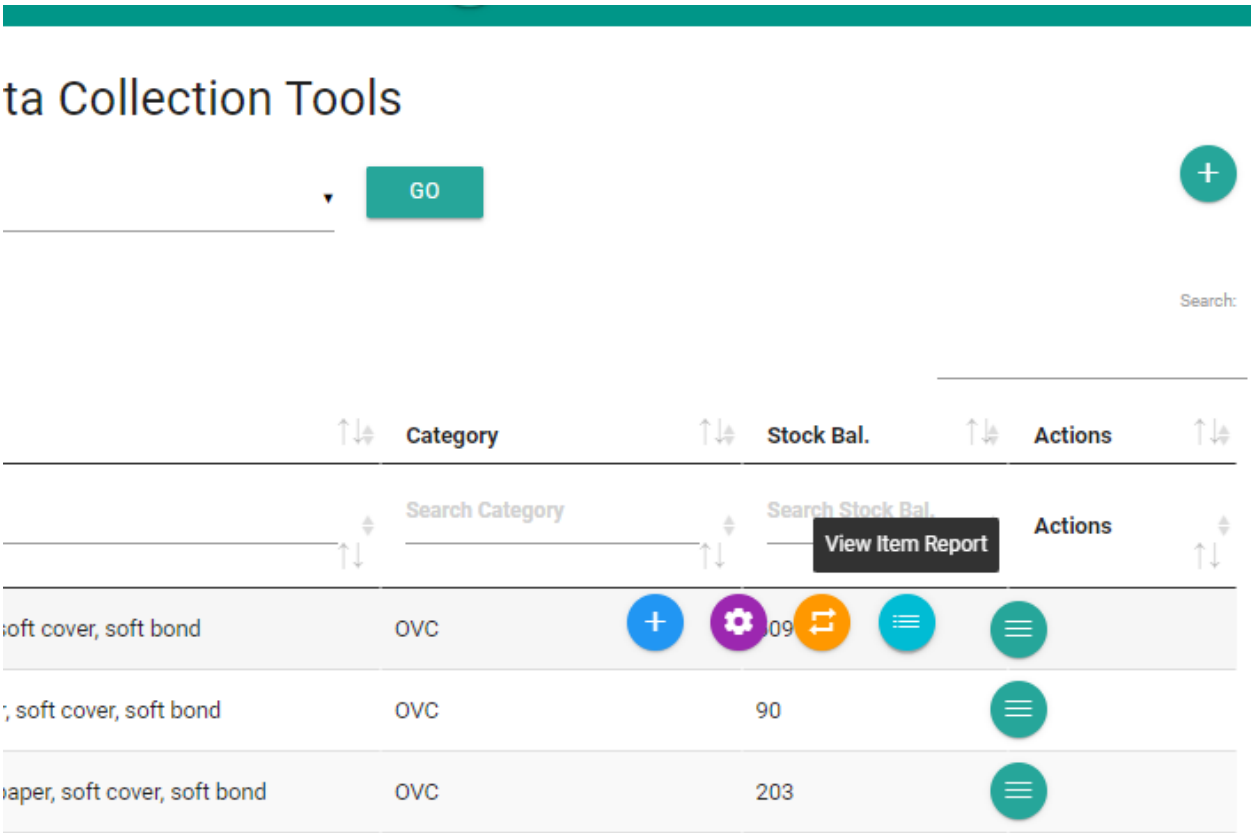

Figure 10: View Single Item Report

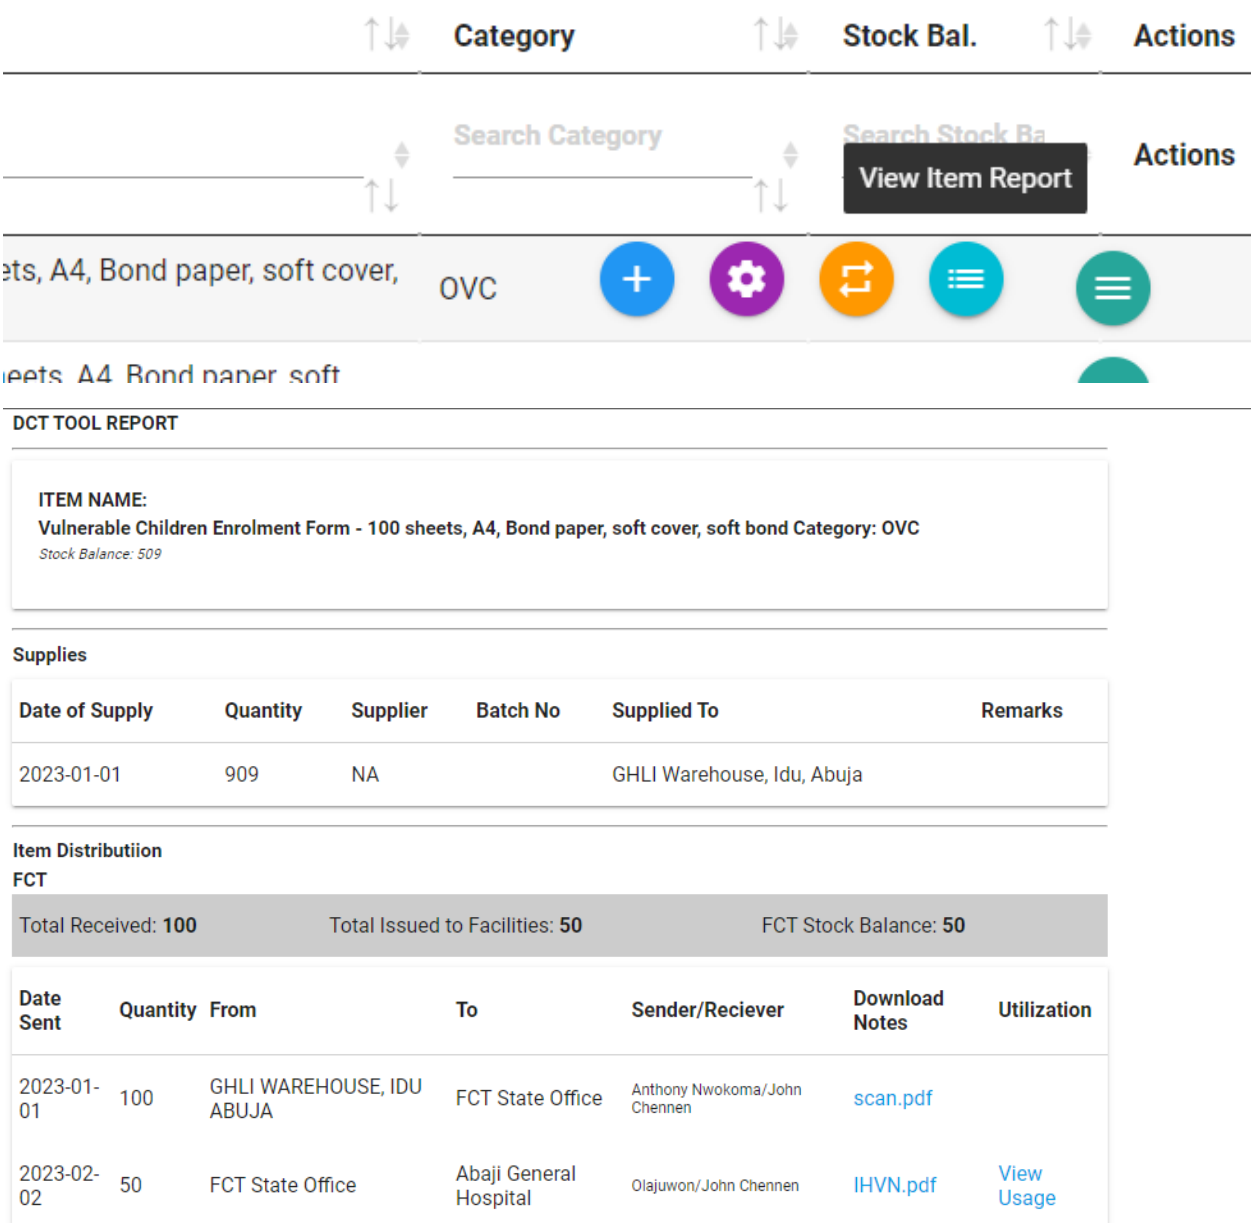
Upon Clicking of the View Item report a dedicated single tool report will be displayed as shown below.



You can use on the download notes file to view the document or the View Usage to see more customized report of the selected facility / item.

GENERATING REPORTS

From the Left Menu, click on 'Generate DCT Report' to use a dynamic report generation form as shown below;

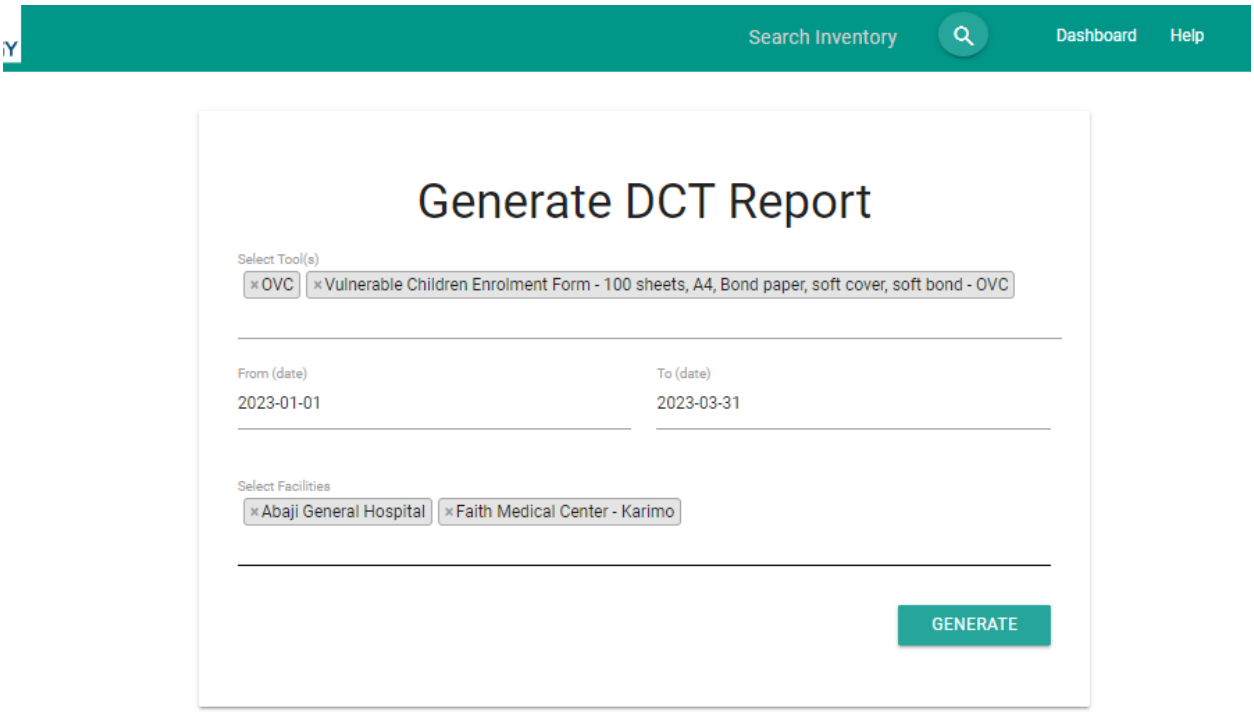


Figure 11: Report Generation Form

Select from the Tools List, All Tools to see a report of all the tools. You can also select the category of tools e.g. OVC, Pediatrics Or select individual list of tools to view their report.

Secondary, choose the reporting period, a facility to generate the report.

You can also choose to generate report for all facilities, a state or states.

The generated report will be a row list of all the tools selected and a column list of facilities, with their respective; benchmark of the selected period, quantity used and available stock.

ADDING SUPPLIES TO WAREHOUSE & STOCKING

This task is reserved for the Central Admin to use in updating the warehouse stock of DCT Tools.

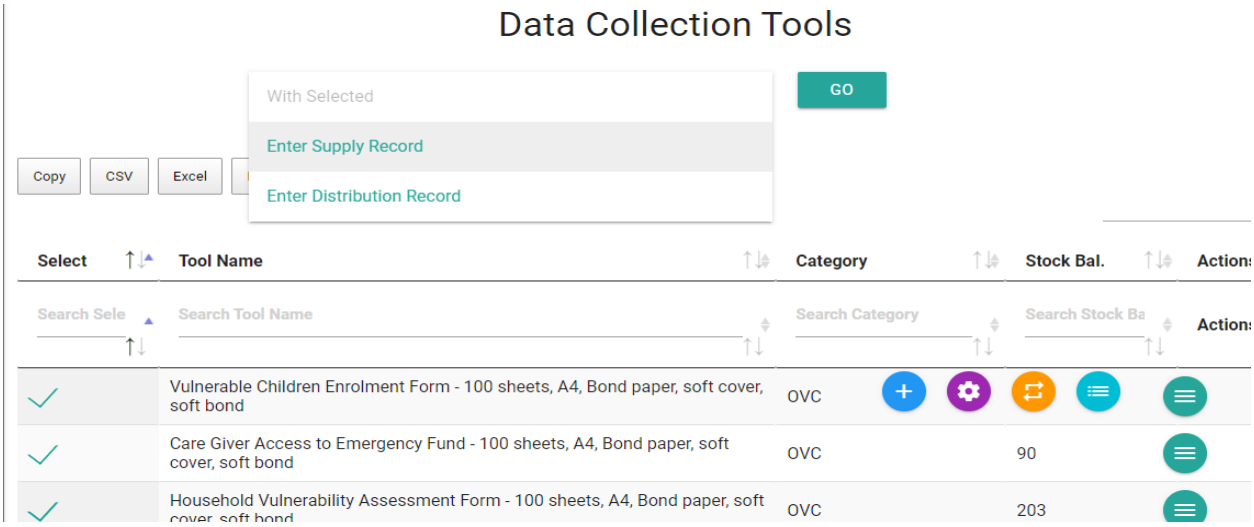

Figure 12: Selecting Items to Enter Supply

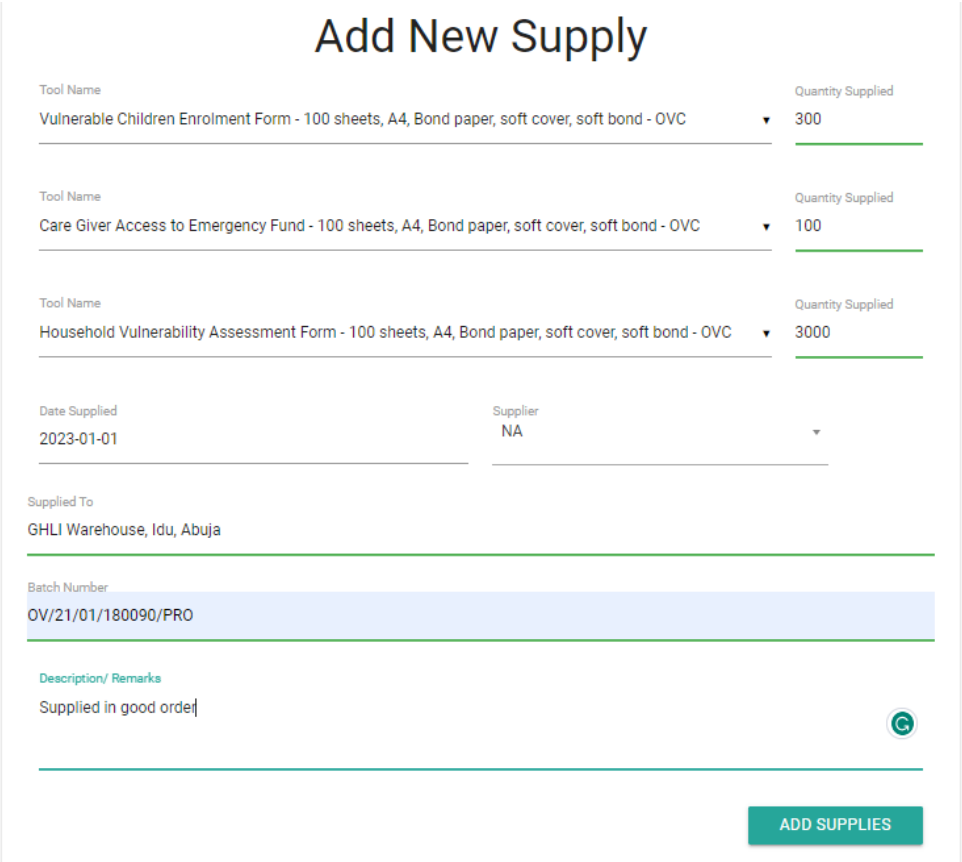
Select a list of items using the checkbox(es) on the left, Select 'Enter Supply Record' and Click Go to display the Supply Form below;



- Enter the Quantities supplied for each selected item
- Enter the date supplied, the location they were supplied to
- Invoice number of any other unique number of the supply documents
- Make remarks/comments and click on 'ADD SUPPLIES' to save.

CREATING USERS

Only the Central and State Admin(s) can create accounts for their states and facilities.

Click on the Create User from the left menu to open the 'New User Form'

Enter the User information and select the State or Facility where the account will be used and save.

HELP AND SUPPORT

You can use the help link on top of the application access help and support information.
